ComColor® 7050/7010

Your fast, affordable, reliable inkjet printer for documents up to ledger size and beyond

Copying, scanning, and printing in full color and black and white has never been so easy or reliable! RISO's ComColor 7050 and ComColor 7010 full-color inkjet printers combine outstanding print speed, high-volume capabilities, and low operating costs to create the ideal color printing solutions for your office or print shop. Featuring simple, intuitive controls and robust print production capabilities, the ComColor 7050 and ComColor 7010 let you add full-color printing to everyday print jobs, but also give you a low-cost alternative for printing black and white.

The 120 ppm ComColor 7050 and ComColor 7010 inkjet printers are specifically designed for high-speed print production at a very low cost. Select the 7050 for multiple paper drawers and 2,500-sheet input capacity. Or choose the 7010 for a single paper source and 1,000 sheet input capacity. Both printers are so easy to use that little or no training is needed.

With a small footprint, these ComColor printers fit easily into most office environments. They're also ENERGY STAR certified, with a host of energy-saving features that make them some of the greenest printers on the planet. It all adds up to a powerful way to print that will get your printing jobs done quickly, easily, and reliably with a reduced impact on our environment.

Speed

At 120 ppm, the ComColor 7050 and 7010 can print 1,000 full-color pages in just over 8 minutes—with no slowdown for duplexing.¹

Cost Efficiency

RISO's cost of black and white and color printing is about half that of photocopiers.

Environment

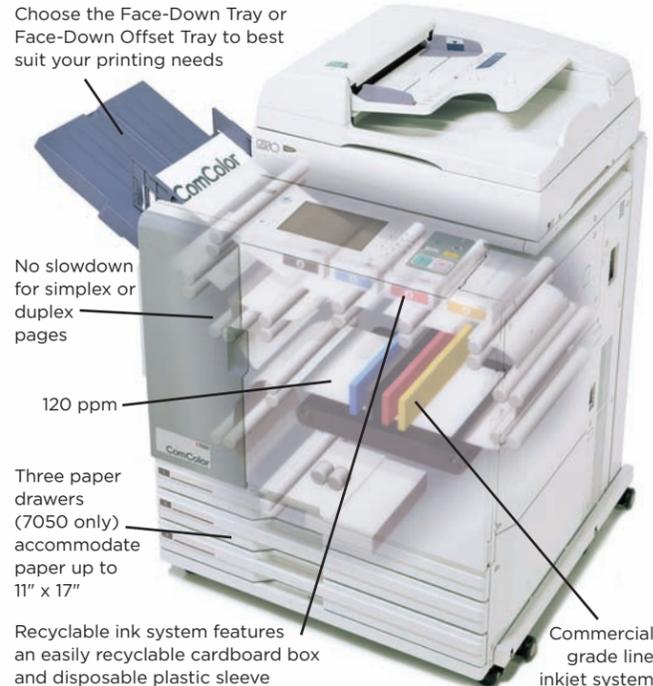

ENERGY STAR certified, the ComColor 7050 and 7010 use a heatless, non-impact printing method with no special power requirements and ultra low power consumption—only 1,000 watts when printing. Plus, the supplies packaging is recyclable.

Reliability

Duty cycle of 500,000 copies per month.

Choose the Face-Down Tray or Face-Down Offset Tray to best suit your printing needs

Envelopes and Diverse Paper Stocks

The ComColor 7050 and 7010 print on a wide range of paper stocks including recycled paper, card stock, and envelopes.²

Scanning and Copying

RISO's optional 40 ppm scanner scans at 600 dpi and increases functionality.³

Standard Features

Standard features include automatic duplexing with no speed reduction. Plus, enjoy mixed-sized printing (7050 only), secure printing, archiving, scan to email³ or USB flash drive³, auto recognition of black and white and color jobs, multi-up, pagination, and booklet printing.^{4, 5}

Optional IS900C Adobe PostScript RIP

Add the optional IS900C, and you'll add a number of advanced features including machine clustering, job splitting, archiving, font downloading, mixed tray printing (7050 only), forms printing, custom print queues, cover page addition, annotations, and headers.

Optional Multifunctional Finisher

Need to staple, 3-hole punch, saddle stitch, offset output pages, or fold documents for meetings, proposals, newsletters, mailers, or workbooks? RISO's Finisher makes it easy.

Optional IC Authentication

Enhance the ComColor 7050 and 7010's built-in User Management feature by adding the IC Authentication Kit II for PIN-less recognition of each registered user.

¹ Output counted in images
² Optional Special Paper Feed Kit may be required for certain stocks/weights
³ Scanning feature available only with optional Scanner
⁴ Booklet printing requires optional Finisher
